ANALYSIS:

DIAGNOSIS:

Patient Accepted: ☐ Yes ☐ No ☐ Referred

Doctor's Signature _____

Most patients that come to our office have one of two objectives in mind concerning their health care. Some patients come for symptomatic relief of pain or discomfort (Relief Care). Others are interested in having the cause of the problem as well as the symptoms corrected and relieved (Corrective Care). Your Doctor will weigh your needs and desires when recommending your treatment program.

Please check the type of care desired so that we may be guided by your wishes whenever possible.

- ☐ Relief Care
- ☐ Corrective Care
- ☐ Check here if you want the Doctor to select the type of care appropriate for your condition

If this is an accident related injury, please fill out the Accident Form. Thank You!

Relief Care
Relief Care is that care necessary to get rid of your symptoms or pain, but not the cause of it. It is the same as drying a floor that was getting wet from a leak, but not fixing the leak.

Corrective Care
Corrective care differs from relief care in that its goal is to get rid of the symptoms or pain while correcting the cause of the problem. Corrective care varies in length of time, but is more lasting.

I understand and agree that health and accident insurance policies are an arrangement between an insurance carrier and myself. Furthermore, I understand that the Doctor's Office will prepare any necessary reports and forms to assist me in making collection from the insurance company and that any amount authorized to be paid directly to the Doctor's Office will be credited to my account on receipt. However, I clearly understand and agree that all services rendered me are charged directly to me and that I am personally responsible for payment. I also understand that if I suspend or terminate, any fees for professional services rendered me will be immediately due and payable.

I hereby authorize the Doctor to treat my condition as he or she deems appropriate. It is understood and agreed the amount paid the Doctor, for x-rays, is for examination only and the X-ray negatives will remain the property of this office, being on file where they may be seen at any time while a patient of this office. The patient also agrees that he/she is responsible for all bills incurred at this office.

OUTLINE OF PROCEDURES FOR CARE

- STEP ONE:**
All new patients are requested to fill out this personal health history questionnaire.
- STEP TWO:**
A one-on-one consultation with the doctor will be done to discuss your health problems and to determine what may be the cause.
- STEP THREE:**
A comprehensive examination and evaluation including those tests necessary to determine the precise cause of your problem is given.
- STEP FOUR:**
The doctor will advise you if additional laboratory tests or x-rays are needed.
- STEP FIVE:**
You will be given a Report of Findings at which time the cause of your problem will be discussed. It includes a thorough explanation of our treatment recommendations and what results can be obtained. You will also be advised concerning how our office procedures work.
- STEP SIX:**
If you are accepted as a patient, care will begin. Additional explanations will be given on the different types of treatments that are available in the office.
- STEP SEVEN:**
An estimate of the future care that is needed will be given and upon your acceptance, care will continue until the personal maximum correction of your problem has been obtained.
- STEP EIGHT:**
After maximum correction has been obtained, a schedule of care will be recommended to help prevent future problems and maintain good health.
